Greenbrook Country Club – Pro Shop

After having been chosen to perform a complete renovation to the Greenbrook Country Club main clubhouse in North Caldwell, New Jersey, Klæe Construction was asked to submit a proposal and was then awarded a contract to build a brand new Pro Shop. Located between the first tee and the ninth green, the new 5,000 sqft building has two levels with the lower level open to grade at the back end to allow for golf cart storage underneath. The upper level includes the pro shop retail area, pro office, 1,500 sqft bag storage area, a halfway house dining facility with fully equipped kitchen and a 1,600 sqft outdoor, brick paved terrace. Roof lines, windows, exterior trims and finishes reflect and complement those of the main clubhouse located just 200 feet away.

P.O. BOX 447, TIDLAND ROAD • OAK RIDGE, NEW JERSEY 07438 • 973-697-4701
